Product Description

A Bullzen rod called PEGASUS a purebred Heavy Spinning rod in cooperation with the leading company Torayca Japan manufactured a high quality 4-AXIS CROSS CARBON 30T Carbon rod for the Heavy Spinning technique. In our tests we worked the whole range 12-40 grams perfectly. Its action is Extra Fast useful to be able to work big artificials and planes. 270 grams total weight 2.80 cm long with fantastic casts and total control on our artificials! It is equipped with 8 Fuji K guides with the first one being a triple mount. A robust rod with 8Kg Max Drag for Heavy Spinning with Eva type grips and double safety on our mechanism! Another quality offering from Bullzen the Pegasus is ready to tackle any kind of big fish.
