## Product Description

We are proud to introduce the new Zeus fishing rod from Bullzen, a range that combines technology with ultimate fishing performance. The Bullzen Zeus is an extreme technical matchstick, designed for managing artificials from 10 to 30 grams artificials. Its height, which reaches 2.20cm, ensures total control and precision in casting. Its design allows for amazing shots with precision on target, as well as comfortable fishing all day long, without tiring on our long adventures. Equipped with 8 Fuji K guides, with the first guide having triple support, the rod weighs just 168 grams. It has a large Eva-type grip that offers the ultimate grip feel. The rod, with the signature Torayca brand, offers correct parabolas on the fish heads and the action of the artificials. The company classifies the rod as Medium Fast action, Ideal for catching big gophers, pike, tuna and bass. A well designed and technical rod, as expected from Bullzen, with excellent finish, design and quality. Get ready to push the limits of fishing with the Bullzen Zeus!
