## Product Description

We present to you the Relix Nusantara yarn, a high quality yarn with very fine cross-sections and incredible strength! The coloring of the yarn is multi color and the cross sections are measurable in PE and mm as are the Japanese measurements. Jabrik HS X8 consists of 8 tight weaves where they are coated with P-FLUORO coating which makes it smooth in texture compact in its weave abrasion resistance and waterproof in salt water.

**Attention! each JABRIK HS X8 thread in the package includes a gift of 5 meters of Fluorocarbon in the appropriate dimensions of the thread.** Relix thread comes in 2 versions : **1' 200 meters from Pe 0.4 Pe 0.6 to Pe 0.8 multi color X8** **2' 300 meters from Pe 1 Pe 1.5 Pe 2 Pe 2.5 multi color X8**

# JABRIK HS X8

PE + COATING P-FLUORO

**300M**
