## Product Description

Relix Nusantara's Sisik 6'11" Gen 2 rod belongs to the luxurious Sisik series and is a reliable tool for fishing enthusiasts. The Sisik series is ranked among the premium series of the company, offering high quality and performance that is worth every penny. The Sisik 6'11" Gen 2 is a Light Rock Fishing (LRF) Tubular rod with a length of 2.11 meters and a weight of only 105 grams. It features 9 Fuji K guides that enhance the strength and precision of fishing. The rod has a fast action, offering excellent sensitivity and response to the angler's movements. The action of the rod covers a weight range of 2 to 10 grams, making it ideal for using hard artificials and planes. An interesting feature is the rod's excellent response to jerks and returns, without losing the minimum of performance. The accuracy and precision of the Sisik 6'11" Gen 2 make it suitable for the apathetic spinners looking for the ultimate .
